# 醫學院

**FACULTY OF MEDICINE**

自 2000 年成立以來，澳門科技大學一直致力推動優質高等教育，迅速發展成為澳門規模最大的綜合性大學，也是海峽兩岸及港澳地區最年輕的二十強大學。

**醫學院**成立於 2019 年，引領澳門醫學教育的發展，本院開辦的研究生學位課程，至今已培育近 300 多名優秀的專業人才。醫學院是澳門唯一一個開辦醫學學士學位課程 (2019)、藥學學士學位課程 (2016)、食品與營養科學學士學位課程 (2019) 以及藥學博士學位課程 (2020) 的高等院校，作為澳門醫學藥學教育的先驅，醫學院秉承澳門科技大學的校訓：“致力實踐，提升知識、能力和質量”，不斷追求卓越的醫學教育，促進澳門醫院臨床合理用藥及管理、高水準藥物科學研究、以及醫藥產業發展等各方面的進步。

醫學院致力培育“明日良醫”、“明日藥師”，推動澳門的醫療發展。本院師資雄厚，教學團隊由世界各地知名學者及專業人士組成，涵蓋醫學、公共衛生學、護理學、食品營養與科學及藥學等專長領域共同實踐重要教學理念。2021 年 9 月，澳門科技大學與珠海市人民醫院合作共建“澳門科技大學醫學院第一附屬醫院”，提升臨床教學能力。此外，醫學院在人工智能、新冠病毒的診斷、治療和疫苗、再生醫學、心血管疾病、前瞻性的食品科學及藥學等領域在國際上開展重要研究。2022 年，本院與珠海科技學院合作成立“珠澳中醫藥與生命健康聯合實驗室”，以鞏固醫學院在大灣區的地位。

### 課程介紹

醫學院就醫學、護理學、公共衛生學、營養學及藥學五大範疇，共設有七個學位課程，分別為內外全科醫學學士學位課程、藥學學士學位課程、食品與營養科學學士學位課程、護理學碩士學位課程、公共衛生學碩士學位課程、公共衛生學博士學位課程及藥學博士學位課程。

▲ 2021 年 9 月 11 日珠海市人民醫院與澳門科技大學在珠海人民醫院舉行「澳門科技大學醫學院第一附屬醫院」揭牌儀式  
11 September 2021 - The unveiling ceremony of the "First Affiliated Hospital of the Faculty of Medicine of Macau University of Science and Technology" at Zhuhai People's Hospital.

#### 內外全科醫學學士學位課程

作為澳門特別行政區醫學教育的領航，醫學院是澳門唯一一個提供醫學學士學位課程的高等院校。該課程旨在為澳門培養具有同理心、人文關懷並能提供高效和優質醫療服務的「明日良醫」。課程採用能力為本的醫學教育，側重於以問題為導向的學習，並以臨床實境加添在初階課程中。課程合共六年，學生將在首兩年沉浸在臨床環境中學習生物醫學科學，再經過初級和高級臨床見習，以及一年的臨床實習。

#### 藥學學士課程

藥學學士學位課程是結合歐美、香港、台灣地區和中國內地藥學高等教育的辦學理念和經驗，充分結合澳門的實際情況和國際醫藥發展的趨勢，從而設計的優質完善教學計劃和課程，包括藥學基本知識理論，藥學實習和科研實踐，注重臨床藥學知識與實踐，以及最新的藥學專業前沿技術和知識的拓展，採用中英文教學，培養適合澳門特點和具有國際性事業拓展能力的新一代高級藥學專門人才。

#### 食品與營養科學學士學位課程

該課程旨在培養具有紮實的食品與營養科學基本理論和實踐技能，掌握食品生產、質量控制、科學研究、食品貿易與管理、公共營養與臨床營養和新食品研發的專業知識、技術和技能的食品與營養科學專門人才。

#### 護理學碩士學位課程

該課程旨在為學生提供護理學領域中先進的理論知識、技能評估、領導力發展、高級臨床實踐，及以護理學理論和研究為科學基礎的實際應用或批判的機會。該課程的修讀年期為二至三年含第一年的課程學習及研究項目。

#### 公共衛生學碩士學位課程

該課程旨在培養公共衛生專業人材。其修讀年期為二至三年，當中第一年是課程學習及隨後的研究項目。課程的重要主題包括：研究方法、健康促進、公共衛生、衛生政策、流行病學、生物統計學、社會健康以及以證據為基礎的公共衛生實踐。

#### 公共衛生學博士學位課程

該課程旨在培養優秀的高級公共衛生專業人材。我們為學生提供公共衛生學領域的實踐以及理論教育，培育他們成為公共衛生領導人才。該課程的修讀年期為三至六年，課程結合授課、研究，以及個人專業的發展。

#### 藥學博士學位課程

藥學博士學位課程是澳門地區首個藥學博士課程，為本澳及鄰近區域藥學類學士，碩士提供更多深造機會。本課程研究涉及面廣，涵蓋藥學領域多個方向，包括藥理學、藥物化

▲ 醫學院與珠海科技學院簽署“珠澳中醫藥與生命健康聯合實驗室”合作協議  
Faculty of Medicine and Zuhai Institute of Science and Technology signed the “Zhuhai-Macau Joint Laboratory of Traditional Chinese Medicine and Life/ Health Sciences” co-operation agreement.

▲ 藥學院院長朱依諤團隊獲得粵港澳大灣區高價值專利培育大賽金獎  
School of Pharmacy team won the gold medal in the 2021 Guangdong-Hong Kong-Macao Greater Bay Area High-value Patent Cultivation Competition.

學、藥物分析學、藥劑學等藥學專業知識。可以更好保證博士生的藥學廣泛知識與技能，適應科技的不斷進步與前沿交叉學科。本課程得到中藥質量研究國家重點實驗室大力支持，學生有機會操作實驗室的諸多高新技術設備，如超高相液相色譜串聯-固相萃取系統及在線超低溫探頭核磁共振，多功能活細胞顯微成像系統，第三代基因測序儀和二次離子質譜等等世界最先進儀器。有助於學生完成高質量科研課題，與國際一流研究相接軌。並且採用英文教學，使學術研究與國際接軌，為澳門藥物產業的國際化和現代化提供專才。

## 培訓中心 / 設備

醫學院建立了醫療及衛生持續培訓中心和醫學院培訓中心，致力開展高質量的本科醫學培訓和持續醫學教育，旨在改善澳門醫療保健服務。

醫療及衛生持續培訓中心是一所專業的醫療 / 衛生模擬培訓中心，提供多項內容全面、綜合化，且達到國際認可水準的課程。培訓內容包括院前院內急救、醫療技能培訓，使用模擬度極高的模擬人作為培訓道具。該中心是目前港澳地區具有先進技術、設備齊全，以數碼軟體、硬體結

合模擬實景培訓，並設有多個受傷 / 病患者的模擬人及作培訓用途的救護車，使學員在具有現場真實感的模擬環境中接受培訓。課程包括：

1. 急救證書課程
2. 高級急救學證書課程
3. 美國心臟協會心臟救助急救、心肺復甦及體外除顫法課程
4. 美國心臟協會健康從業人員基礎生命支持課程
5. 美國心臟協會健康從業人員基礎生命支持導師課程
6. 美國心臟協會高級心血管生命支持 (ACLS) 證書課程

自 2011 年起，醫學模擬培訓中心成為中國醫師協會唯一授權的臨床技能和模擬培訓中心。同時獲愛丁堡皇家外科學院頒授全面技能發展認可培訓中心資格，這是愛丁堡皇家外科學院首次於大中華地區頒授認可資格。作為內外全科醫學學士學位課程中一個核心的角色，醫學模擬培訓中心所提供的各種醫學臨床技能培訓已納入課程學習範圍。這種模擬培訓模式能夠補充傳統教學方法，讓醫科生可以通過實驗學習來提昇技能、團隊合作精神、溝通和安全性。

在教學設施方面，藥學課程現有多個專門的實驗室，包括化學實驗室，機能實驗室，形態實驗室，生化實驗室暨人體解剖學實驗室，儀器分析實驗室。現有儀器包括：穿透性測定儀、崩解儀、堆積密度測定儀、片劑硬度測定儀、旋光度測定儀、原子吸收分光光度計、紫外可見分光光度計、傅裡葉轉換紅外分光光度計、超高效液相色譜、系統電視生物顯微鏡、高級雙目顯微鏡等儀器，組織學和胚胎學模型以及生物機能實驗系統，承擔教學實驗以及中藥質量研究國家重點實驗室的科研實踐工作。

藥學課程的科研專題實習依託本大學的中藥質量研究國家重點實驗室（詳見大學網頁中藥質量研究國家重點實驗室介紹）。該實驗室是我國中藥藥領域迄今唯一的國家重點實驗室，擁有中國工程院院士、高被引用科學家、講座教授、教授、副教授、助理教授等完整的學術梯隊，能為每位研究生配備高水準的導師小組。

## 科大醫院

科大醫院為醫學院及中醫藥學院的臨床帶教基地，也是全澳唯一一所具備大學支持的醫院。醫院住院部設有雙人病房、私家病房及豪華病房，迎合不同病患的需要。

科大醫院座落於澳門路氹中心地帶上的澳門科技大學校園內。醫院宗旨是希望能在舒適和愉快的環境中，以先進的醫療設備，為患者提供優質的西、中醫醫療服務。

在醫科臨床和實習期間，科大醫院將為醫科生提供臨床學習的場地，通過參與病人治理服務，讓學生獲得裨益。科大醫院的基礎設施協助學生未來的專業發展。

◀ 三年級醫科學生赴珠海人民醫院進行外科見習  
Our Year 3 MBBS students at a surgical clerkship at Zhuhai People's Hospital.

## 國際認證

本學院透過美國哈佛大學醫學院 HMX Fundamentals 的線上教學和評估工具，同時結合本校授課部分，讓本院醫科生能夠與國際接軌。HMX 基礎知識模組涵蓋了生理學，遺傳學，生物化學，藥理學和免疫學等基礎主題。至今本院三屆內外全科醫學學士學位課程學生已成功註冊，並參與各部分的預定考試。超過六成成人考獲由美國哈佛大學醫學院發出基礎課程 (HMX Fundamentals) 修業證書。

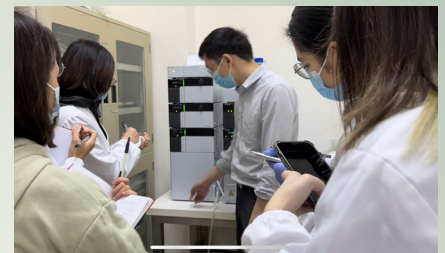

## 全球合作

醫學院是全球網絡的一部分，本院成功被列入《世界醫學院校名錄》，它是由世界醫學院校聯合會和聯合國國際醫學教育研究促進基金會共同

編制。本院更是世界葡語系國家醫學院大聯盟的 13 個創始成員之一，其他創始成員包括葡萄牙，巴西和莫桑比克等 12 所頂尖醫學院。此外，本院與中華人民共和國國家衛生健康委員會 (NHC) 簽訂了醫學教育合作協議，促進雙方在醫學和保健領域上的合作，以加強中國內地與澳門特別行政區之間在對醫療保健專業人員的持續醫學教育和技能培訓的交流。

The Macau University of Science and Technology (M.U.S.T.) has been offering high-quality tertiary education since its establishment in 2000. M.U.S.T. is now the largest multi-disciplinary University in Macau, and is ranked among the top 20 universities in China. **The Faculty of Medicine**, established in 2019 comes under the newly established Medical Sciences Division, and takes the lead in the development of Macau's healthcare training. Our postgraduate programs in Public Health, Nursing and Pharmacy have nurtured over 300 outstanding professionals. We also offer Macau's only Bachelor of Medicine and Bachelor of Surgery (MBBS) (2019), Bachelor of Pharmacy (2016), Bachelor of Food and Nutritional Sciences (2019) and Doctor of Philosophy in Pharmacy (2020), training the next generation of doctors and pharmacists. As a pioneer of medical and pharmacy education in Macau, the Faculty of Medicine adheres to the M.U.S.T. motto: "Dedication to practical studies, Enhancement of knowledge, Ability and Quality" in our continued search for excellence in medical and pharmacy education.

At the Faculty of Medicine, we are dedicated to our mission of training "Tomorrow's Doctors" and "Tomorrow's Pharmacists" to advance healthcare development in Macau. We achieve this aim with a faculty of distinguished scholars and professionals with world-leading expertise in medical/ pharmacy education, public health, nursing, food and nutritional science. Since September 2021, we have also partnered with Zhuhai's People's Hospital as the "First Affiliated Hospital of the Faculty of Medicine of Macau University of Science and Technology" to expand our clinical teaching capabilities. In addition, the Faculty of Medicine produces world-class research in areas of artificial intelligence, COVID-19 diagnosis, treatments and vaccines, regenerative medicine, cardiovascular diseases and cutting-edge food sciences. We have partnered with the Zhuhai Institute of Science and Technology to establish the "Zhuhai-Macau Joint Laboratory of Traditional Chinese Medicine and Life/ Health Sciences" to strengthen our position in the Greater Bay Area.

## Curriculum

The Faculty of Medicine offers seven programs in five areas of study including: Bachelor of Medicine and Bachelor of Surgery (MBBS), Bachelor of Pharmacy (BPA), Bachelor of Food and Nutritional Science (BFNS), Master of Nursing (MN), Master of Public Health (MPH), Doctoral of Public Health (DPH) and Doctor of Philosophy in Pharmacy (DPP).

### Bachelor of Medicine and Bachelor of Surgery (MBBS) Degree

Our flagship MBBS program is the first and only in Macau. We aim to train and produce doctors who are compassionate, caring and competent in the delivery of effective and efficient patient care. Our MBBS program adopts a competency-based curriculum, which focuses on problem-oriented learning and classes are delivered with a clinical context early in the program. The MBBS program is six years long. Students will be immersed in biomedical sciences in a clinical context for the first two years, followed by junior and senior clinical clerkships. There will be a one-year clinical internship at the end of the program.

### Bachelor of Pharmacy (BPA) Degree

The Bachelor of Pharmacy program has combined the ideas and experiences of higher pharmaceutical education in Europe and the United States, Hong Kong, Taiwan, and mainland China, in line with the local requirement of Macau and the international trend of biomedicine. This program covers the basic pharmaceutical knowledge, practical pharmacy, and academic research, with a focus on clinical and practical pharmacy, as well as the latest cutting-edge technology and pharmaceutical sciences. Both Chinese and English will be used as teaching languages and students are trained to become a new generation of advanced pharmaceutical professionals with international business capabilities and moreover, the graduates are fitting well for Macau community development.

### Bachelor of Food and Nutritional Sciences (BFNS) Degree

Our BFNS program aims to produce specialists in the field of food and nutritional sciences, including food production, quality control, scientific research, food trade and management, public nutrition and clinical nutrition.

### Master of Nursing (MN) Degree

Our MN program aims to provide students with advanced theoretical knowledge, assessment skills, leadership development, and advanced clinical practice in nursing, as well as opportunities to critique and apply nursing theory and research

as a scientific basis for nursing practice. The MN program spans from 2 to 3 years comprising 1-year course work followed by a research project.

### Master of Public Health (MPH) Degree

Our MPH program aims to produce public health professionals. The MPH program spans from 2 to 3 years comprising 1-year course work followed by a research project. The former covers a number of important areas including research methods, health promotion, public health, health policy, epidemiology, biostatistics, sociology of health, and evidence based practice.

### Doctor of Public Health (DPH) Degree

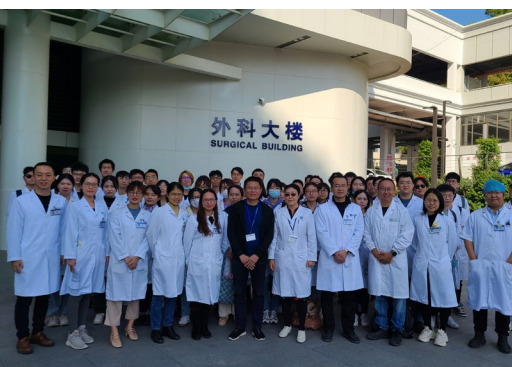

Our DPH program aims to produce public health professionals at doctorate level. We provide students with the opportunity of receiving a practical as well as theoretical education in public health, and prepare them for leadership in public health. The DPH program spans from 3 to 6 years comprising course work, focused research, and personal and professional developments.

### Doctor of Philosophy in Pharmacy Degree (DPP)

PhD. in Pharmacy is the first pharmacy doctoral program in Macau. It offers good chances to further their academic goals for graduates with bachelor or master degrees in pharmacy degrees in Macau and the great bay regions. This program covers a wide range of topics in the pharmaceutical field, including pharmacology, chemistry of pharmacy, drug analyses, pharmaceuticals, and more. It can better equip the trainees with extensive knowledge and skills in pharmacy, and help them adapt to the fast-changing interdisciplinary science and technology. This course is highly supported by the State Key Laboratory of Quality Research in Chinese Medicine. Students have the opportunity to operate many state-of-art instruments in the laboratory, such as ultra-high-phase liquid chromatography tandem-solid phase extraction system and online ultra-low temperature probe nuclear magnetic resonance, multi-functional living cells imaging systems, third-generation gene sequencers, and secondary ion mass spectrometry. They help students to complete high-profile scientific research projects and keep them in line with world-class research. The program uses English as teaching language to assure academic research standard and to keep the pharmaceutical industry in Macau within the track of internationalization and modernization.

## Training Centers / Facilities

The Center for Continuing Medical and Health Education (CCMHE), and the Training Center of the Faculty of Medicine take the lead in top quality undergraduate medical training and continued

Our honorable guest, teachers and students participated in the Innovations in Medical Education & Research Symposium.

medical education, with the aim of improving healthcare provision in Macau.

The Center for Continuing Medical and Health Education (CCMHE) is a professional simulation training center. It provides comprehensive and integrated training courses at internationally recognized standards. Courses include first aid, pre-hospital and in-hospital care, skills training such as virtual intravenous injection, tracheal intubations, etc. Mannequins are used in all of our courses, and different kinds of accidents and disasters can be simulated for the trainers and candidates. In the scenario training, mannequins will be used as victims, and there is also a simulated ambulance service, thus making the drills more realistic. This is the highlights of the courses:

- First Aid Certificate Course
- Advanced First Aid Certificate Course
- American Heart Association (AHA) Heartsaver® First Aid CPR AED Course
- American Heart Association (AHA) Basic Life Support for Healthcare Providers
- American Heart Association (AHA) Basic Life Support for Healthcare Provider (instructor)
- American Heart Association(AHA) Advanced Cardiovascular Life Support (ACLS).

The Center for Medical Education in Medical Simulation is also the only Authorized Clinical Skills and Simulation Training Centre of Chinese Medical Doctor Association since 2011. It is also awarded the Comprehensive Skill Development Certified Qualification by the Royal College of Surgeons of Edinburgh (RCSEd). This is the first of its kind in Greater China. Together with our MBBS program, the Center for Medical Education in Medical Simulation will take on the central role of delivering many of the clinical skills aspects of medical training, which is incorporated into our curriculum. Such simulation training will complement traditional teaching methods to allow experiential learning for our medical students to improve skills, teamwork, communication and safety.

Other teaching facilities include a number of specialized laboratories, with state-of-the-art instruments such as penetration tester, disintegration apparatus, bulk density tester,

hardness tester, optical tablet tester, atomic absorption spectrophotometer, UV visible spectrophotometer, Fourier transform infrared spectrophotometer, ultra-performance liquid chromatography, electric optic biological microscope system, histology and embryology model and biological function experiment system. These instruments are used for both practical teaching and scientific research in conjunction with the State Key Laboratory of Quality Research in Chinese Medicines.

Our teaching and research activities are also strongly backed by the State Key Laboratory of Quality Research in Chinese Medicines, the only one of its kind in the field of traditional Chinese Medicine. It hosts academicians from the Chinese Academy of Engineering, Highly Cited Scholars, chair professors, professors, associate professors, and assistant professors. With these academic personals, every graduate student can enjoy a high-standard tutor group.  
<http://www.must.edu.mo/en/skl/about-the-institute>  
 (State Key Laboratory of Quality Research in Chinese Medicines)

## University Hospital (UH)

The UH is the clinical teaching arm of the Faculty of Medicine and Faculty of Chinese Medicine. This makes it the only hospital in Macau fully supported by advanced academic faculties. Our in-patient department provides various types of room: semi-private room, private room and VIP room to suit patients' needs.

The University Hospital is located on the campus of Macau University of Science and Technology, in the heart of Macau's Cotai Area. The University Hospital aims to provide high quality healthcare for both Western Medicine & Traditional Chinese Medicine services, with the advanced medical facilities, to all of our patients in a pleasant and comfortable environment.

Service provided at various departments shall benefit students to learn and participate in patient care during their clinical years and internship. Physical infrastructures at UH will assist students with their future career developments.

Services provided at various departments shall benefit students to learn and participate in patient care during their clinical years and internship. Physical infrastructures at UH will allow faculty to conduct Objective Structured Clinical Examinations (OSCE) and assist students with their future career developments.

## International Accreditation

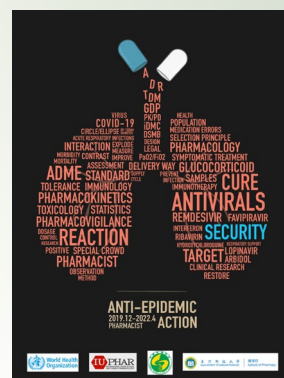

We benchmark our MBBS students to international standards by partnering with Harvard Medical School and subscribe to their online teaching and assessment tool, HMX, to run alongside our MBBS

curriculum. The HMX Fundamentals modules cover foundational topics in physiology, genetics, biochemistry, pharmacology and immunology. At present, three cohorts of our medical students have successfully registered and participated in the scheduled examinations. Sixty percent of our medical students obtained the HMX Fundamentals certificate of achievement issued by Harvard Medical School.

## Global Collaborations

The Faculty of Medicine and its medical school is part of a global network. We are listed in the World Directory of Medical Schools (published by the World Federation for Medical Education and the Foundation for Advancement of International Medical Education and Research). We are also a founding member of the World Portuguese Speaking Countries Medical School Alliance. This alliance has 12 other founding members from Portugal, Brazil and Mozambique. Furthermore, our Medical School also has a medical education collaboration agreement with the National Health Commission of the People's Republic of China (NHC) in order to enhance co-operation between mainland China and Macau S.A.R. in the fields of medicine and health, particularly in continued medical education and skills training for healthcare professionals.

Our Faculty also collaborates with Peking University People's Hospital (Beijing, China), West China Hospital of Sichuan University, The First Affiliated Hospital of Sun Yat-sen University, Hong Kong University-Shenzhen Hospital, Zhuhai People's Hospital, Dazhou Central Hospital, Kiang Wu Hospital (Macau), Faculty of Medicine of University of Lisbon (Portugal) and Faculty of Medicine of University of Porto (Portugal) to join forces and provide more academic and clinical exchanges. We have also established cooperative partnerships with international pharmacy institutions in the United States, Portugal, Hong Kong, and mainland China, providing more choices for internship and employment opportunities.
